

ZAMIR JAMALOV

IT Project Manager | Fintech & E-Commerce

+994 55 207 7228 | jamalov.zamir@gmail.com | Baku, Azerbaijan

PROFESSIONAL SUMMARY

IT Project Manager with 2+ years of **project ownership** across fintech and e-commerce, having led 4 concurrent projects from inception to go-live on-time and within budget. Defined scope with WBS and SMART objectives, maintained Risk Registers, managed stakeholders via RACI and RAG reporting, and coordinated external vendor integrations. 15+ years engineering background enables technical oversight and vendor management. Skilled in Agile/Scrum, SQL, and Power BI.

CORE COMPETENCIES

• Scope Definition & WBS	• Budget & Resource Allocation	• Risk Register & Mitigation
• Agile / Scrum / Waterfall / Hybrid	• Stakeholder Mgmt (RACI) & RAG Reporting	• Change Management (CAB)
• Critical Path & Milestone Tracking	• UAT Coordination & Sign-off	• Vendor & Dependency Management

PROFESSIONAL EXPERIENCE

Embafinans | IT Project Manager

2025 – Present | Fintech | Baku, Azerbaijan

Projects Delivered (Full Ownership — Inception to Go-Live):

- BNPL Credit Scoring — Owned end-to-end delivery; led team through scope, sprints, and UAT; achieved 2x faster decisions and on-time go-live
- B2C Sales Channel — Led full lifecycle delivery with payment gateway; managed workstreams across sales, IT, and vendors; delivered 300-500 daily applications
- Delivery Dashboard — Coordinated from requirements to sign-off; reduced errors by 50%
- Credit Lifecycle Platform — Oversaw delivery across 3 departments; zero critical defects at go-live

Project Management Approach:

- Scope & WBS: Created Work Breakdown Structures and SMART objectives with KPIs and DoD
- Planning & Execution: Built milestone roadmaps, tracked velocity/burndown in Jira, and managed critical path for on-time delivery
- Risk Management: Maintained Risk Register with probability/impact scoring; mitigated vendor delays, scope creep, and cross-team dependencies proactively
- Stakeholders & Reporting: Implemented RACI matrix; delivered weekly RAG status reports to sponsors; aligned business and technical teams
- Budget: Allocated resources across 4 concurrent projects; tracked burn rate vs. baseline with contingency reserve
- Change & Quality: Managed change requests via impact analysis; defined test strategy, coordinated UAT, led bug triage, and achieved sign-off across all releases
- Vendors: Managed external integrations (PayTabs, Kapital Bank, Cuzdan); coordinated sandbox testing, SLA compliance, and dependency resolution

Birbonus | IT Project Manager

2024 – 2025 | Baku, Azerbaijan

- Owned end-to-end delivery of loyalty bonus system; led stakeholder alignment, scope, and partner onboarding; delivered on-time with full merchant adoption
- Built Power BI dashboards for data-driven project monitoring and executive reporting

Umico | L2 Support Team Lead

2022 – 2024 | Baku, Azerbaijan

- Led L2 incident resolution team; managed SLA compliance via ELK Stack and cross-team coordination
- Supported partner API integration onboarding and vendor dependency management

TECHNICAL FOUNDATION & EDUCATION

15+ years across banking & financial systems — software development, systems integration, and technical infrastructure: Central Bank of Azerbaijan (payment gateway & Government Payment Portal), Unibank (mobile banking — Mobile Soft). C#/.NET, Oracle, MSSQL, PostgreSQL, MongoDB, Git, CI/CD, REST/SOAP APIs. Enables precise scope definition, technical oversight, and vendor management.

Baku State University — BSc Applied Mathematics | Azerbaijani (Native) | Russian (Fluent) | English (Professional)
