

ZAMIR JAMALOV

RPA Developer | Process Automation & API Integration

+994 55 207 7228 | jamalov.zamir@gmail.com | Baku, Azerbaijan

PROFESSIONAL SUMMARY

Results-driven RPA Developer with hands-on experience in business process analysis, API integration, and automation delivery across fintech and e-commerce platforms. Strong foundation in C#/.NET, SQL, REST/SOAP APIs, and system integration. Proven ability to analyze As-Is workflows, design automated processes, and deliver solutions that reduce manual effort. Leveraging 15+ years in software engineering for rapid development and cross-system data exchange.

CORE COMPETENCIES

• Business Process Analysis & Automation	• RPA Bot Development & UiPath	• API Integration (REST/SOAP, JSON/XML)
• SQL Queries & Data Analysis	• C# / .NET & Python	• Git & CI/CD Pipelines
• UAT Planning & Coordination	• Technical Documentation (BRD/FRD/SRS)	• ERP Systems & Data Exchange

PROFESSIONAL EXPERIENCE

Embafinans | IT Business Analyst / Automation Specialist

2025 – Present | Baku, Azerbaijan

- Analyzed business processes using BPMN As-Is/To-Be modeling; identified manual steps for automation, reducing credit processing time by 2x
- Designed REST API specs in Swagger/OpenAPI 3.0 for payment gateway and wallet systems; managed cross-system data exchange with external partners via JSON/XML
- Built automated credit pre-screen system: replaced manual multi-factor evaluation with automated workflow, achieving 2x faster decisions
- Developed real-time delivery tracking dashboard with digital e-signature, automating document flow and reducing errors by 2x
- Coordinated UAT with stakeholders, led bug triage, and achieved on-time sign-off across 4 major release cycles
- Authored BRD/FRD/SRS with REQ-101 requirements and traceability matrix for developer handoff
- Used SQL (JOIN, GROUP BY, Subqueries) to resolve stakeholder conflicts and present data-driven process improvement recommendations

Birbonus | IT Business Analyst

2024 – 2025 | Baku, Azerbaijan

- Analyzed loyalty workflows; designed automated earning rules, eligibility criteria, and partner settlement processes
- Defined API integration requirements for partner merchant onboarding and real-time transaction data exchange

Umico | PostgreSQL Developer & L2 Support

2022 – 2024 | Baku, Azerbaijan

- Built backend features with PostgreSQL and Python; resolved L2 incidents via ELK Stack log analysis
- Supported partner API integration: endpoint configuration, JSON validation, and error resolution for cross-system data exchange

TECHNICAL FOUNDATION & EDUCATION

Software Engineer — 15+ years: Central Bank of Azerbaijan (payment gateway & Government Payment Portal), Unibank (mobile banking — Mobile Soft). C#/.NET backend, Oracle, MSSQL, PostgreSQL, MongoDB, Git, CI/CD, REST/SOAP APIs, XML data exchange.

Baku State University — BSc Applied Mathematics | Azerbaijani (Native) | Russian (Fluent) | English (Professional)
