

ZAMIR JAMALOV

IT Support Specialist | Fintech & Payment Systems

+994 55 207 7228 | jamalov.zamir@gmail.com | Baku, Azerbaijan

PROFESSIONAL SUMMARY

Results-driven IT Support Specialist with hands-on experience in merchant onboarding, API integration support, incident management, and back-office administration across fintech and e-commerce platforms. Guided merchants through full integration lifecycles — from test environment setup to production go-live. Strong foundation in networking, log analysis, REST API troubleshooting, and payment processing workflows. Backed by 15+ years of engineering experience in the banking sector, enabling rapid root cause analysis. Proven ability to translate complex technical issues into clear guidance for non-technical merchant stakeholders via email and chat.

CORE COMPETENCIES

• Merchant Onboarding & API Integration	• Incident Management & Troubleshooting	• Log Analysis & Root Cause Investigation
• Network Tools (ping, telnet, ipconfig, traceroute)	• REST API Testing & Postman	• Back-Office Administration
• Payment Processing Workflows	• Cybersecurity & Data Protection	• Technical Documentation & FAQs

PROFESSIONAL EXPERIENCE

Embafinans | Integration & Support Specialist

2025 – Present | Baku, Azerbaijan

- Managed end-to-end merchant onboarding — from sandbox/test environment setup and API key provisioning to test case execution and production go-live
- Troubleshot integration issues, validated API endpoints, and ensured seamless data exchange by coordinating directly with merchant development teams
- Created technical documentation (Confluence) including API integration guides, error code references, and troubleshooting manuals for merchant self-service
- Tested REST API endpoints using Postman, validating JSON payloads, HTTP status codes, authentication flows, and error responses
- Administered back-office operations: managed merchant credentials, webhook URLs, and access permissions following PCI-DSS security standards
- Implemented PayTabs card tokenization workflow for credit disbursements to customer cards — card registration with verification, token issuance, and token-based payouts via Kapital Bank; coordinated with both bank and PayTabs support teams on failed transaction resolution

Birbonus | Merchant Integration Specialist

2024 – 2025 | Baku, Azerbaijan

- Onboarded partner merchants with hands-on technical support for API-based integration and payment configuration
- Created test cases and conducted integration testing to verify transaction flows, bonus accumulation logic, and settlement processes
- Served as primary technical contact for merchants, translating complex integration requirements into clear step-by-step guidance; managed credentials and admin panel settings

Umico | L2 Support Specialist

2022 – 2024 | Baku, Azerbaijan

- Resolved L2 production incidents via ELK Stack/Kibana log analysis, identifying root causes of transaction failures, escalating to dev teams when needed, and meeting SLA targets
- Used network diagnostic tools (ping, telnet, ipconfig, traceroute, nslookup) and HTTP/S knowledge to troubleshoot connectivity issues between services and external APIs
- Provided technical support to partner teams for API integration onboarding — endpoint configuration, authentication setup, and error resolution

TECHNICAL FOUNDATION & EDUCATION

Central Bank of Azerbaijan & Unibank | Software Engineer — 15+ years in banking and financial services: payment gateway systems, secure transaction handling, and data protection. Deep understanding of DNS, IP, HTTPS/TLS, and cybersecurity principles for financial systems.

Baku State University — BSc Applied Mathematics | Azerbaijani (Native) | Russian (Fluent) | English (Professional)
