

ZAMIR JAMALOV

IT Project Manager

+994 55 207 7228 | jamalov.zamir@gmail.com | Baku, Azerbaijan

PROFILE SUMMARY

Results-driven IT Project Manager with 2+ years of hands-on project delivery across fintech and e-commerce. Proven track record of managing cross-functional teams through full lifecycles -- from scope definition and stakeholder alignment to UAT coordination and production go-live. Delivered credit scoring platforms, payment gateway integrations, and real-time monitoring dashboards. 15+ years engineering background enables effective technical oversight, precise scope definition, and rapid issue resolution. Skilled in Agile/Scrum, risk mitigation, budget tracking, and data-driven decision making with SQL and Power BI.

CORE COMPETENCIES

Project Management

Project Planning & Scheduling | Budget & Resource Allocation | Risk & Issue Management | Stakeholder Management | Change Management | Scope Definition & Control

Methodologies & Tools

Agile / Scrum | Waterfall | Jira (PMIS) | Confluence | Power BI | RICE
Prioritization | UAT Planning

Languages

Azerbaijani (Native) | Russian (Fluent) | English (Professional / Technical)

Business Analysis

BRD / FRD / SRS | User Stories & Acceptance Criteria (Gherkin) | BPMN (As-Is / To-Be) | Gap Analysis | Stakeholder Interviews

Technical Skills

SQL (Advanced Queries) | REST API & JSON | Swagger / OpenAPI 3.0 | Postman | ELK Stack

PROFESSIONAL EXPERIENCE

Embafinans | IT Business Analyst (Project Delivery & Coordination)

2025 - Present | Fintech | Baku, Azerbaijan

Projects Delivered as Project Lead:

- BNPL Credit Scoring & Pre-Screen Risk Assessment -- Led end-to-end delivery of automated multi-factor credit decisioning system, achieving 2x faster credit decisions
- B2C Sales Channel & Payment Gateway Integration -- Managed cross-functional delivery of online sales channel processing 300-500 daily applications with integrated payment processing
- Goods Loan Delivery Tracking Dashboard -- Coordinated real-time monitoring dashboard with digital e-signature, reducing tracking errors by 50%
- End-to-End Credit Lifecycle Platform -- Oversaw full lifecycle delivery spanning application, disbursement, and collection modules across cross-functional teams

Project Management & Delivery Approach:

- Scope Definition & Planning: Conducted stakeholder sessions to define project scope, map As-Is workflows, and design To-Be BPMN process models for project roadmapping
- Budget & Resource Management: Allocated and tracked resources across concurrent projects, monitored delivery costs aligned with project timelines, ensuring optimal use of available budget
- Requirements Management: Authored BRDs, FRDs, and SRS with REQ-101 numbered requirements; maintained traceability matrix across sprints to ensure scope control
- Technical Coordination: Defined REST API specs in Swagger/OpenAPI 3.0, created sequence diagrams for integration flows, and managed developer handoff
- Stakeholder Management: Facilitated alignment meetings, managed expectations across business and technical teams, delivered regular status reports and dashboards
- PMIS & Sprint Tracking: Implemented Jira-based project management workflows for sprint planning, burndown reporting, task tracking, and milestone management
- Quality Assurance & Test Strategy: Participated in test strategy planning alongside QA teams, coordinated UAT execution, led bug triage meetings, achieved on-time sign-off
- Risk & Change Management: Identified project risks and dependencies, managed change requests, implemented mitigation strategies, and used SQL data analysis for evidence-based decisions
- Resource Prioritization: Ranked requirements using RICE framework to align sprint planning with business value and optimize team resource allocation

Birbonus | IT Business Analyst (Project Delivery)

2024 - 2025 | E-Commerce / Fintech | Baku, Azerbaijan

- Led design and delivery of customer loyalty bonus system enabling shoppers to earn rewards and redeem across partner merchants
- Conducted stakeholder sessions to define earning rules, eligibility criteria, and partner settlement workflows, managing scope from concept to delivery
- Created interactive Power BI dashboards for stakeholder reporting and data-driven project monitoring

Umico | PostgreSQL Developer & L2 Support

2022 - 2024 | E-Commerce | Baku, Azerbaijan

- Built backend features using PostgreSQL and resolved L2 production incidents via ELK Stack log analysis and source code investigation
- Supported partner teams with API integration onboarding, demonstrating cross-team coordination and technical troubleshooting skills

TECHNICAL FOUNDATION

15+ years in software engineering (Central Bank of Azerbaijan, Unibank, ASAN Service) -- C# backend, relational databases (Oracle, MSSQL, PostgreSQL) and NoSQL (MongoDB), system integration, Git, CI/CD pipelines. Deep technical background enables effective technical oversight, requirement-to-code translation, vendor management, and rapid root cause analysis -- critical competencies for IT project management.

EDUCATION

Baku State University -- Bachelor of Science in Applied Mathematics
