

ZAMIR JAMALOV

IT Business Analyst | Digital Lending & Credit Operations
+994 55 207 7228 | jamalov.zamir@gmail.com | Baku, Azerbaijan

PROFILE SUMMARY

Business Analyst with 2+ years in fintech credit scoring, digital lending, and real-time decision engine implementation. Led end-to-end scoring system setup and B2C digital sales channel processing 300-500 daily loan applications, from strategy definition through go-live and PSI-based monitoring. Deep understanding of microservices-based lending platform architecture (LW) including Java/Spring Boot backend services, event-driven scoring pipeline, and modular decision engine. Engineering background enables precise translation of risk logic and business requirements into developer-ready specifications.

CORE SKILLS

Risk & Scoring:

Credit Scoring | Real-Time Decision Engine | Multi-Stage Cut-off Design | Scorecard Matrices | Additive Point-Based Scorecard | PSI Monitoring | Score Distribution Analysis | Champion-Challenger Testing | Decision Audit Trail | Antifraud Rules

Platform & Technical:

LW Lending Platform Architecture | Java / Spring Boot (Backend Services) | Microservices | Event-Driven Scoring Pipeline | SQL (Advanced Analysis) | Python (pandas, NumPy, regression) | REST API & JSON | Swagger / OpenAPI 3.0 | SOAP / XML | Oracle / PostgreSQL

Business Analysis:

BRD / FRD / SRS | User Stories (Gherkin) | BPMN (As-Is / To-Be) | Data Mapping | Gap Analysis | Use Case | RICE Prioritization

Languages:

Azerbaijani (Native) | Russian (Fluent) | English (Professional / Technical Docs)

PROFESSIONAL EXPERIENCE

Embafinans | IT Business Analyst

2025 - Present

- **Scoring Strategy & Decision Engine** — Led scoring strategy with Risk & Compliance; defined 6 data source requirements (ASAN Personal Info, ASAN Finance, Pension Info, AKB Score, AKB History, SIMA), multi-stage decision logic and cut-off criteria; designed 6-stage real-time decision engine with three-way routing (auto-approve / auto-reject / expert review) and full decision audit trail
- **B2C Sales Channel & Payment Gateway Integration** — Designed and launched B2C digital sales channel processing 300-500 daily loan applications; integrated online payment gateway for real-time disbursement and collection processing, enabling seamless end-to-end digital lending experience
- **Goods Loan Delivery Tracking Dashboard** — Built real-time monitoring dashboard for goods loan delivery lifecycle, reducing operational errors by 2x; implemented digital e-signature workflow for paperless contract execution and automated delivery confirmation
- **End-to-End Credit Lifecycle Management** — Managed full credit lifecycle from application intake through disbursement, repayment tracking, and collection; coordinated cross-functional workflows across Sales, Risk, IT, Operations, and Finance teams ensuring process alignment at each stage
- **Scorecard Development** — Built additive point-based scorecard with Risk Team; mapped AKB history attributes (9-month payment trend, overdue days, active loan count, credit card utilization, loan amount distribution) to calibrated point adjustments overlaid on bureau base score; natural logarithm normalization for skewed distributions
- **UAT & Model Governance** — Coordinated UAT with QA & Risk; designed test scenarios for pass/fail edge cases, executed champion-challenger validation; established PSI-based monitoring with monthly score distribution analysis, cut-off efficiency tracking, rule versioning, and data quality governance
- **Antifraud & BA Documentation** — Structured pre-disbursement antifraud checks (velocity checks, cross-source validation, behavioral pattern flags); delivered BRD/FRD/SRS with full traceability, Swagger/OpenAPI specs for scoring service APIs

Birbonus | IT Business Analyst

2024 - 2025

- Designed a customer loyalty bonus system — defined earning rules, spend eligibility criteria, partner settlement workflows, and API integration specs; prepared BRD

Umico | PostgreSQL Developer & L2 Support

2022 - 2024

- PostgreSQL backend development; L2 production incident resolution via ELK Stack log analysis; API integration onboarding and troubleshooting for partner teams

TECHNICAL FOUNDATION

PL/SQL backend developer with deep expertise in enterprise banking systems. Led core banking system development — general ledger, chart of accounts, accounting transactions, currency exchange, and credit lifecycle modules — at Zaminbank. Designed and developed mobile banking platform (UMobileBank) at Unibank. Drove banking system modernization at Bank of Baku and Rabita Bank. Built e-commerce platform backend at Umico. 15+ years spanning Central Bank of Azerbaijan, Unibank, Zaminbank, Bank of Baku, Rabita Bank, and ASAN Service — covering C# backend, Oracle / PostgreSQL / MongoDB, system integration, and CI/CD pipelines.

TRAINING & EDUCATION

Innab Training Center | Corporate Data Analytics Trainer

Delivered corporate Python data analytics training for Bank of Baku and SOCAR Upstream — adapted content to each organization's real datasets; focus on descriptive/diagnostic analysis, hypothesis testing, regression modeling, and pandas/NumPy-based data exploration.

Baku State University - BS in Applied Mathematics
